

## Valuable Land for Sale.

Under the authority of a decree of the Superior Court of Chancery, in the suit of Frederickburg, in the suit of Giles Fitzhugh against A. and J. Schofield, the subscriber will offer at public sale, for cash, at Gooding's tavern, on the premises, on Tuesday the 18th March next, a valuable tract of Land, containing about 1616 acres, situate in Fairfax county, on both sides of the Little River Turnpike Road and of Acotank Run, about 9 miles from Alexandria & nearly the same distance from the city of Washington. Part of a large tract called Ravensworth, and formerly owned by Mr. Giles Fitzhugh. On this tract there is a very valuable Mill Seat, towards the improvement of which considerable progress has lately been made by digging out and preparing the races, & collecting a large portion of the building materials which are now on the spot: the site also affords room for an extensive manufacturing establishment.

Most of the great mills leading to the towns above mentioned, fall into the Little River Turnpike Road a short distance above the land proposed to be sold, and a new turnpike road leading directly from the land to the city of Washington and Georgetown has lately been laid off and part of it finished. The soil is well adapted to farming and the use of plaster and clover, and a large portion of the land is already well taken in clover. The various advantages this land possesses render it well worth the attention of enterprising men. A great number of lots have been laid off for a town proposed to be established along the turnpike road.

The sale will commence precisely at 12 o'clock, and the land will be laid off into lots to suit purchasers. Any chartered bank paper declared to be current in Fairfax county, by the court of that county, will be received in payment. N. B. The sum to be raised by the above sale is \$4517 60, with interest from the first day of this month, and the expenses of sale.

**OUR RELATIONS WITH SPAIN.**  
CONTINUED.

Copy of a letter from the Secretary of State to the Chancelier de Ouis, dated  
DEPARTMENT OF STATE,  
January 25, 1817.

SIR,

I have had the honor to receive your letter of the 16th in reply to mine of the 14th of this month.

It having been the invariable desire of the United States to settle all differences with Spain on just and fair conditions; it is seen with much regret, that a similar disposition is not manifested on the part of your government.

Finding by your letter, that I had distinctly understood the views of your government, as explained by you, in our late conference, and stated in my last letter; and perceiving also, that you still adhere to those views, which, being altogether inconsistent with the rights of the United States, are inadmissible; I have to repeat that this government has no motive to continue the negotiation, on the subject of boundaries.

In making this frank declaration, I cannot avoid expressing my surprise, that you should now find it necessary to refer again to your government, for instructions on any part of this subject. These differences have long existed, and, as far back as 1805, were fully discussed, as you readily admitted, in every circumstance appertaining to, or connected with them, in a special mission to Madrid for the purpose. It was hoped and expected, on the restoration of the diplomatic intercourse between the two nations, that you would have been invested with full powers to settle them; and it was in accordance with your views, when this was found not to be the case, that the requisite authority was given to the minister plenipotentiary of the United States at Madrid. It could not have been doubted, as your government had not authorized its minister here to bring these controversies to a conclusion, that the minister of the United States would have been promptly met in his offers to effect it at Madrid. I need not repeat to you the great disappointment which the President felt, when, after the lapse of so much time, he was informed, that an expression of regret in my letter to you of the 10th of June, at the delay resulting from your want of powers, and from the necessity of transferring the negotiation to Madrid, had been misconstrued into a desire that it should be transferred again to the United States. On examining, however, the tenor of your commission, and the communications between Mr. Erving and Mr. Cevallos, both of which seemed to contemplate a prompt conclusion of the business here; the idea now brought forward in your letter, of a further resort to your government for other instructions, was surely the last to enter into the anticipations of this government.

It is proper to add, that I understood you to coincide in our late conference, fully with me, in the sentiment, that any further discussion of subjects, which had been already so often discussed and completely exhausted, would be useless, since it could not be presumed that any change of opinion on any point, would take place on either side. Each party understands its rights, and has, doubtless, made up its mind as to the conditions it is willing to adopt. To those suggested by you, as being worthy the consideration of your government, this government cannot agree.

Under these circumstances, I have again to request that you will do me the honor to inform me, whether you are willing to conclude a convention, to provide indemnity for spoiliations, and the suppression of the deposit at New-Orleans, as mentioned in my last letter.

I have the honor to be, with the most perfect consideration, sir, your very obedient servant.  
**JAMES MONROE.**  
[Documents to be continued]

**CHARLESTON, Feb. 21.**

**Latest from France.**

The ship Indian Hunter, captain Choate, in 50 days from Marseilles and 59 from Gibraltar Bay, arrived at this port yesterday. This arrival furnishes verbal accounts to the 1st of January, on which day she left Marseilles. The apprehension of a scarcity still prevailed in France; but as capt. C. thinks without any foundation, as cargoes of grain, were almost daily arriving from the Black Sea and other quarters.

No political news whatever was stirring at Marseilles.  
Captain Choate informs, that none

of our squadron were at Gibraltar when he left, 11th January; but understood they were concentrated at Port Mahon. The Indian Hunter has brought in 11,000 Spanish dollars.

**Latest From England.**

The British ship Christopher, capt. Rowe, arrived here yesterday in 50 days from Liverpool, brings accounts to the 1st of January. Nothing important of a political nature had transpired since last advices, except the sudden arrival of Lord Wellington from Paris. This event excited much speculation, but the precise reason for it had not transpired. We are favored with the loan of London and Liverpool papers, from the latest of which a few extracts are made below.

The markets in England had undergone but little or no alteration since the last dates. We have seen several commercial letters, in one of which, dated the 28th Dec, the arrival of the Repeater and George from this port, is announced.

Popular meetings continued to be held in different parts of England, but accompanied by less alarm than the preceding ones.

**LONDON, Dec. 27.**

The public will be rather surprised to learn, because altogether unexpected, that the Duke of Wellington is now in London. His grace came from Calat in the Ant passage vessel, and reached Dover on Thursday night, attended by two Aids de Camp, one of whom is Lord Arthur Hill.

From Dover the Duke proceeded just nly to the residence of his brother the Marquis of Wellesley, at Ramsgate, where he spent Christmas day, and yesterday afternoon his Grace arrived in London.

The visit, it appears, was altogether unexpected; even the Duchess had no notice of more than his intention to be in England within a few weeks. Lord Castlereagh knew of his arrival only by a messenger from the Darford road, upon the chance that he might be at his seat at North Gray. Lord Castlereagh immediately came to town, and the Duke of Wellington had a long interview with him. All the other Ministers were out of town.

It is possible that the Duke's arrival is not particularly connected with public affairs, and may be only or chiefly on a friendly visit to his brother and numerous friends; but it is much more probable that his Grace has come over upon some sudden business of importance.

Our readers will recollect that an officer of rank lately brought despatches from his Grace's army, which it was soon known related to some irregularities that had occurred in obtaining the payments due from the French government; and it is very possible that the Duke's visit may have been occasioned by the same circumstance.

From private intelligence which we have just received, we are happy to inform our readers; that the meeting at Bristol, of which such apprehensions have been entertained, passed off without the least disturbance. A series of resolutions and a petition which Mr. Hunt brought with him, were carried as matters of course.

It is reported this morning that accounts have reached town of a most atrocious murder at Nottingham, perpetrated by some of the ruffians of the Frame-breakers, but we have not learnt the particulars.

To captain Dogget of the brig William and Ezra, 65 days from Liverpool, we are indebted for a file of London papers, but no later dates than those received via Charleston. From another source however, we have been politely favored with the Liverpool Courier of Dec 18, containing London accounts to the 16th, from which we extract the following:

**London, Dec. 13.**

City address and petition.—On Monday, the Right Hon. the Lord Mayor, the Aldermen, Recorder, Sheriff, Common Council, and officers of the Corporation of the City of London, waited upon the Prince Regent, at Carlton House, with the Address and Petition voted at the meeting of the common Council, and which was read by Sir J. Silvester, Bart.

Recorder. To which Address and Petition his royal highness was graciously pleased to return the following answer: It is with strong feelings of regret that I receive this address and petition of the Lord Mayor, Common Council, and officers of the Corporation of the City of London, in common Council assembled: Deeply as I deplore the existing distress and difficulties of the country, I derive consolation from the persuasion, that the great body of his Majesty's subjects, notwithstanding the numerous attempts which have been made to irritate and mislead them, are well convinced, that the severe trials which they sustain with such exemplary patience and fortitude, are chiefly to be attributed to unavoidable causes, and I continue to place with the most cordial satisfaction, the efforts of that enlightened benevolence which is so usefully and laudably exerting itself throughout the kingdom. I resort with the utmost confidence to the wisdom of Parliament at the time which, upon the fullest consideration, have thought most advisable, under present circumstances of the country, and I entertain a perfect conviction, that a firm and temperate administration of the government, assisted and supported by the good sense, public spirit, and loyalty of the nation, will effectually counteract those proceedings which, from whatever motives they may originate, calculated to render temerary and irreparable calamity.

# JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,  
Have just received from LEE'S PATENT MEDICINE Store, No. 46 Maiden Lane, N. York.

**A FRESH SUPPLY**  
Of the following genuine Medicines.  
**For the prevention and cure of Bilious and Malignant Fevers, is recommended**

## Hahn's Anti-Bilious Pills.

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern & Middle States, particularly in N. York, Philadelphia, Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age. They are excellently adapted to carry off superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration and thereby prevent colds which is so often fatal consequences. A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

## HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or fulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar title, so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and perfectly inoffensive, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

## DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz.—The Terebrator, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tenia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face coated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of chint—a dreadful disorder, which annually destroys the number of the infant part of our citizens.

Remedy known, and the restorer to health and strength a great number who in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Dumfries, January 14—18

## Notice.

The public are hereby informed that a company has been formed under the title of THE QUANTICO WAREHOUSE COMPANY, who have erected, one mile below the town of Dumfries, a large and convenient Warehouse on Quantico creek, for the storage of flour, grain, etc. which warehouse will be ready for the reception of produce on Monday the third of February. The trustees of said Company have appointed Zebulon Kankey their Agent, to attend the said Warehouse, to receive produce on storage and give receipts for the same. And for the prompt delivery of all articles received in the said warehouse by their agent, (first alone excepted) the Company hold themselves bound. All persons depositing flour, grain, etc. must pay, before taken away, the following storage, viz. For each barrel of flour 6 cents; if it remains in said warehouse over 1 month 8 cents; & in the same proportion for the time it may remain. For each bushel of wheat, or other grain two cents; if it remains over one month three cents; and in the same proportion for the time it may remain. And for all articles of merchandise a reasonable storage only will be demanded. Persons storing flour may have it inspected, or not, at their option. If not inspected, the agent's receipt will specify the brand and the state of the barrels. The weight of one bushel wheat, running measure of each load or parcel of wheat. All articles stored, the same to be returned to the owner when called for, be it flour, wheat, other grain, etc. Customary allowances for wastage, etc. excepted.

Quantico Warehouse is situated on Quantico Creek, only two miles from its junction with the Potomac river, at all times navigable for lighters. There are belonging to this creek a sufficient number of lighters to ensure a brisk transportation down the creek of all articles stored. Vessels may be got to take produce to the district of Columbia, Baltimore, Norfolk, or elsewhere. The present freights are—To the district twelve and half cents per barrel of flour, and to Baltimore and Norfolk 25 cents from the mouth of Quantico. The proximity of this warehouse to a large extent of country, added to the goodness of roads leading to it from the westward, being little inferior to paved ones. It being found by actual survey little more than 25 miles from Hay Market to Dumfries, will, it is confidently believed by the trustees, by this route greatly lessen the expense of transportation of produce even to the district of Columbia, and they pledge themselves to the public to use every means within their power to give satisfaction.
